

Detroit River PAC Meeting notes

Monday, November 9, 2015 2 – 4pm

ECT, Inc. Detroit Office, 1155 Brewery Park Blvd., Suite 115,
Lower Conference Room, Detroit, MI 48207

1. PAC Administration

- a. Agenda comments/revisions/additions
- b. Introductions – see attached sign in sheet.

2. Presentation

- a. EPA Sediment Characterization Status – Rose Ellison, EPA
 - Celeron Island (Spet 2013)
 - Mid/lower Trenton Channel (oct 2014)
 - Upper Trenton channel
 - River rouge/ecorse shoreline (Oct. 2013) Mouth of ecourse to rouge
 - Riverbend Area (Head of old channel to cobo) – Nov 2015
 - Harbortown area (April 2016)

Sampling completed for Celeron, mi/lower trenton channel, upper Trenton Channel, river rouge/ecorse shoreline. Layers of data created and evaluated. Concentration information was also digested to a level of comparison to determine toxicity. Methodology followed that which was done by the Rouge as it is transferrable.

3. Sediment Technical Sub-Committee Formation

- a. Share list of Committee Invites – Bob Burns
 - i. Will include original sediment team
 - ii. Any others that should be included, send their information to Tricia.
